III Attestation

I, the undersigned Official Veterinarian do hereby certify that:

- 1) the eggs and egg products were derived from poultry located in a region which at the time of egg laying was free from Highly pathogenic avian influenza and Newcastle disease according to the OIE Terrestrial Animal Health Code;
- 2) the shell eggs were packed in (an) egg packing centre(s) and the egg products were processed in (an) egg processing plant(s) that have been approved and that are under the supervision of the competent authority;
- 3) the eggs and egg products were handled, produced, packed and stored under sanitary conditions in accordance with the European Union legislation on public health requirements;
- 4) the eggs and egg products were at the time of loading in perfect condition and unconditionally fit for human consumption; and
- 5) Finland implements an official testing program for harmful organisms, veterinary drug residues and other toxic substances. The results of the tests meet European Union performance standards and have not provided any evidence as to the presence of chemical/drug residues or toxic substances or harmful organisms in this consignment which could be harmful to human health.
